Samuel L. Slosberg

REPORT OF THE PRESIDENT

During the past three years, when it was my privilege to be President of the Beth Israel Hospital, the hall-mark of its activities was change, constant and swift-moving. The spirit of these years was perhaps exemplified in the following quotation from my Annual Report for 1965:

"No longer are we an institution sitting behind four walls, waiting for people to come to us for medical help. We are rapidly changing as must all great hospitals, to a community health center; and as such we reach out beyond our walls into the community to bring health to people who might not come to this or any hospital except in cases of emergency. In other words, we're trying to keep people out of the hospital as long as possible. And to do this, we are extending our great medical resources to as a large a community as we can reach." In a brief survey it is perhaps impossible to note all the changes which have taken place during these years, but I would like to mention some of the highlights.

To meet the challenges of the future we have attracted a number of excellent young physician-scientists, who are anxious to come here to work, study and contribute their expertise to our patient care, teaching and research programs. Dr. Mitchell T. Rabkin, our new General Director; Dr. William Silen, Surgeon-in-Chief; and Dr. John Hedley-Whyte, Anaesthetist-in-Chief, are prime examples of this fortunate trend, and there have been many others who will add a great deal to the stature of the Hospital.

The building program, begun as a result of the 1960 Development Campaign, was completed. In April, 1966 the magnificent Rabb Building, major structure of that program, was dedicated. Other units completed during these past three years included the Outpatient Building and the Emergency Unit. A new Surgical Intensive Care Unit was also put into operation. Responding to vast changes initiated as a result of new ways of delivering care to the community, the Hospital is participating in Medicare and other governmental programs. We have reached out into the community to provide service in new areas.

Our Child Care Program furnishes continuous medical care to more than 2,000 children who have never had a relationship with a physician. A new grant will enable this program to expand its work. Under a new agreement with the Hebrew Rehabilitation Center for Aged, the Hospital assumes a wider responsibility for the standards of medical care for Center residents. Other programs which have been carried on in this area include the Home Care Department and care for children placed in foster homes by the Jewish Family and Children's Service.

In the fields of teaching and research our capabilities for conducting expanded programs were enhanced by the dedication of the Grosberg Teaching Unit and the Riesman Lecture Hall. A new series of conferences known as "Advances in Medicine" has brought outstanding medical and other leaders to the hospital to discuss key problems. In addition, a wide range of research studies have been carried on in major fields of inquiry.

In 1966 the Hospital celebrated its 50th Anniversary with a number of events culminating in the Golden Anniversary Ball. All of this activity, this healthy ferment, could not have taken place without the active involvement of the men and women of the Board of Trustees, the Women's Auxiliary, and the members of the Beth Israel Hospital staff and employees. I have enjoyed working with them and have been impressed by their outstanding abilities and devotion to the Hospital's well-being.

I am confident that the Beth Israel Hospital, through constant and rapid increase in medical knowledge, will continue to meet the highest standards in patient care.

REPORT OF THE GENERAL DIRECTOR

Our determination is to be able to say, always, that we are delivering better patient care than we ever have in the past. Each year, then, will be one of significant change, since the fabric of medical care is rewoven perpetually with the constantly evolving scientific, sociologic and economic threads that run through our society. Certainly 1967 has produced noteworthy developments at Beth Israel Hospital. The impact of Medicare, quieter than some gloomily predicted, was primarily to nudge the fraction of over-65 patients on Medical-Surgical from 35 to 40 per cent and thus bolster the census. The major increment in patients served, however, was due to efficiency in scheduling admissions of all types. Compared to the previous year, 1967 saw 300 more major surgical procedures, 550 more deliveries, 10,000 more patient days and almost 2,500 more Emergency Unit visits. This care could not have been achieved without the skillful participation of all of our 1700 employees. Even though we mention the names of but a few, all deserve our gratitude.

Among the Clinical Services, Surgery and Anaesthesia were in the midst of metamorphosis. Dr. William Silen, Surgeon-in-Chief, had already established the core of his department, consisting of Drs. Edwin Salzman, Donald Glotzer, Chester Rosoff and John Skillman, in the six months since arrival. Representation from specialty services then added were Dr. Elliot Finkelstein in Ophthalmology and Dr. Nicholas Zervas in Neurosurgery, rounding out a complement which included Dr. Seymour Zimbler in Orthopedics, Dr. Werner Chasin in Otolaryngology and Dr. Solomon Berg in Urology. Arrangements were also begun toward development of a joint program in Cardiac Surgery with Dr. W. Gerald Austen of the Massachusetts General Hospital.

The Operating Room and Recovery Room were transferred from Nursing into the Clinical Services Division and brightened by a new Supervisor, Miss Betty Swenson. Five Surgical House Officers were called to the Israeli Army for the "Six Day War." Dr. Ben Eiseman, Professor of Surgery at the University of Colorado, spent a week as Visiting Professor *pro tem*. A close liaison in surgery was developed with the Hebrew Rehabilitation Center for Aged.

Even more newly arrived, Dr. John Hedley-Whyte, Anaesthetist-in-Chief, rapidly enlarged on the existing strengths in his department. Dr. Howard Trachtenberg became Chief of Clinical Anaesthesia and Dr. Leonard Bushnell, Co-chairman of the Surgical Intensive Care Unit. The Respiratory Therapy Service blossomed, under Mr. Robert Ridley, and a Chest Physiotherapy Service was instituted. Residents and fellows were recruited and the Service began to mature into one which would, within a year of its stirring, become the thirty-seventh in the country approved for a full three year residency program. Under Dr. Hedley-Whyte, B.I. joined with the other major Harvard teaching hospitals in forming a Center for Training in Anaesthesia.

The Surgical Intensive Care Unit, financed in large part through the devoted generosity of the Women's Auxiliary, was created as a joint venture of Anaesthesia and Surgery, co-directed by Drs. Leonard Bushnell and John Skillman. In space formerly occupied by an open ward, the nine bed unit with its supporting facilities was opened for care of the desperately ill. It has proven its life saving potential many times over.

The Medical Service, under Dr. Howard H. Hiatt, had just been graced by the visit of Dr. Robert F. Loeb, Bard Professor of Medicine Emeritus of Columbia University College of Physicians and Surgeons. Had he not been on Harvard's Board of Overseers, he would have been Visiting Professor *pro tem*, but those distinguished gentlemen are not permitted to hold faculty appointments. His successor, Dr. Carl V. Moore, Busch Professor of Medicine of Washington University, St. Louis, joined the Service for a week in the Spring, with full title.

On the Nursing Units, Medicine ended segregation of ward and private patients, implementing the full intent of the Medicare law. Dr. George Pike became Coordinator of Private Service Activities and Director of Medical Utilization Review. The "Medical Seminars of the Beth Israel Hospital" began appearing regularly in the *New England Journal of Medicine*. Drs. Irving Goldberg and Paul Zoll were elected to the Association of American Physicians. Nuclear Medicine achieved full independence under Dr. Peter Schneider, Dr. Paul Reich assumed direction of the Blood Bank and Clinical Laboratories, and Dr. Frank Davidoff became head of the Diabetes Unit. An effective hemodialysis program was generated by Dr. Howard Frazier and Dr. H. Richard Nesson, and an equally successful revamping of Cardiac Catheterization blossomed under Dr. Eugene Morkin.

The lengthy search for a Psychiatrist-in-Chief ended happily with the appointment of Dr. John C. Nemiah. Under Acting Chief Dr. John Vorenberg, two areas had been notably vigorous — Child Psychiatry, headed by Dr. Silvio Onesti, Jr., and Psychology, which became vitalized with the arrival of Dr. Robert Misch.

Two new clinical programs occupied the attention of Acting Chief Dr. Harold Rubin and the Department of Obstetrics-Gynecology. The Booth Memorial Home transferred its obstetrical care program to the B.I., and the Service developed a Maternal and Infant Care project in Roxbury, in an attempt to make inroads on some of the high fetal and maternal mortality rates so notable in the statistics of both urban and rural poverty stricken populations. An affiliation was developed with Worcester Memorial Hospital to enlarge House Officers' training in Gynecological Surgery.

Pediatrics, under Dr. Robert Berg, continued growth in its solid program of Child Care in Roxbury. Within the Hospital, the arrival of Dr. Richard Baum led to increasing attention to the newborn and premature nurseries.

Dr. Morris Simon, Radiologist-in-Chief, organized a two-day seminar, "Frontiers of Pulmonary Radiology," at Harvard Medical School, to honor Dr. Felix G. Fleischner, Radiologist-in-Chief, Emeritus. The Service grew in personnel with the arrival of Neuroradiologist Dr. Jorgen Stovring, and in facilities with the opening of the Landers Radiology Unit, directly adjacent to the Emergency Ward.

In Pathology, headed by Dr. David Freiman, an extraordinary growth in use of electron microscopy was seen, with Dr. Thomas Ashford directing that unit. The extensive contribution provided by Beth Israel Hospital to Harvard Medical School and its teaching programs was exemplified by Dr. Freiman's coordinating the HMS Pathophysiology course and chairing one of the major committees on revision of the curriculum — these in addition to the variety of other university administrative and committee responsibilities which make up part of the daily round of academic existence.

For the House Officers, the most noteworthy advance was the emergence from poverty with a change in salaries, an enlightened action following rumbles originating at another Boston hospital, but echoing throughout the city and across the nation.

The financial statement, published elsewhere in the *Annual Report*, deals with operating expenses in the direct delivery of patient care. It does not include details of our expenses for research or the grants received to pay these expenses. During 1967, we received grants of $2,709,102 for research. Of that sum, $2,225,069 was spent on salaries and supplies. Another $302,263 was used to purchase equipment, most of which becomes the property of the Hospital. Finally, $181,770 was turned over to the operating funds of the Hospital to pay for overhead costs. An unfortunate popular misconception has been that the Hospital loses money on research. These figures illustrate that the reverse is, in fact, the case: (a) the Hospital does not use operating funds for research, (b) research pays its own rent for overhead costs, (c) research equipment becomes added *gratis* to the property of the Hospital and much ultimately is used in patient care, and (d) at virtually no cost to the Hospital, research funds encourage more of the best physicians in the country to work at Beth Israel. From examination of hospitals throughout the country, it is well-known that the stronger the research support, the better is the medical care delivered. This benefit of a strong research arm is a major factor responsible for the continued growth in the quality of care we give to our patients.

Other departments within the Division of Clinical Services, headed by Mr. Jack Kasten assisted by Mrs. Suzanne Kase, have seen equally great change. Mr. Michael Littman revamped the Admitting Office and Mr. Gaetano Paladino assumed direction of the Pharmacy. The demands of Medicare and Medicaid were well met by the Medical Record Library, under Mrs. Dorothy Richmond, and by Social Service, headed by Mrs. Beatrice Phillips.

The School of Nursing graduated its last class and went out of existence, save for an active Alumnae group and a set of poignant memories. The decision, made some three years earlier, had to do with a decline in number of applicants, the relatively increased cost of running the school (and a much greater cost projected if high quality of its education were to be maintained), the brouhaha still so alive concerning diploma versus baccalaureate education, the liaison possible with Northeastern University College of Nursing, and some other facets and even a few spectres less easily recalled. Perhaps the greatest good to emerge has been the new relationship with Northeastern University. We now participate in the training of many of their students from both Associate and Baccalaureate Nursing Programs and find the ability of these young women to be gratifyingly high. Other nurse-student affiliations were established, with the Massachusetts Bay Community College and with the Licensed Practical Nurse Program of the Soldiers' Home in Chelsea.

At the end of the year, Miss Dora Zolotin retired as Director of Nursing, a position she held for nearly a decade. Mrs. Marjorie Bachmann, Associate Director, became Acting Director and began new efforts to increase recruiting and to enhance the attractiveness and satisfaction of working in Nursing at B. I.

One earlier step in this direction had been the creation, by Nursing itself, of the Unit Manager Program, designed to relieve the nurse of certain tasks not actually within the substance of nursing, yet traditionally performed by nurses. To enhance development of the program, and to hasten full definition of its responsibilities, Unit Management was transferred to the Division of House Services, headed by Mr. Silas M. Wass. It fell under the charge of Mr. Moses Baskin, newly arrived Associate Director of House Services.

House Services was involved in a variety of construction projects during the year; the conversion of wards 4B and 5D into semi-private accommodations; the conversion of wards 4C and 5E into the Surgical and Medical Intensive Care Units (the latter just begun at the end of the year); the building of the Landers X-ray Unit, the office suite for Dr. Silen's service, Dr. Silen's laboratory in Yamins 1, the laboratories and animal rooms in the basement of Kirstein Hall, and the metamorphosis of the Kirstein Hall lawn into a parking area for Staff Physicians. The outstanding performance, however, was the landscaping in front of the Rabb Building, made memorable by a *tour de force* in the placement of a thirty-five foot hemlock tree.

A new training program, for Housekeeping Custodians, was begun by Mr. Wass and Mr. Vincent McCrave, Administrative Housekeeper. A uniformed guard was placed at the main entrance from 9 p.m. to 7 a.m., quieting the night significantly.

Dietary Services, under Miss Lorraine Jacoby, moved into the House Services Division after Mr. Jerome Sapolsky resigned as Director of Administrative Planning, which had somewhat incongruously

included the food service within its domain. The new title of that division became Facilities Planning and Systems Engineering, with Mr. Francis J. Sullivan as Acting Director, and it showed increasing involvement in new construction as the excavation progressed for Buildings L and R and as the steel girders, long delayed by a strike, began to take shape. Another task begun was that of coordinating the Industrial Engineering Program of the Massachusetts Hospital Association with our Division of Nursing, to add efficiency in management of the nursing unit. In the design of the Intensive Care Units, Facilities Planning and Systems Engineering brought together all involved departments and divisions in an outstanding example of forethought and teamwork.

Fiscal Services, directed by Mr. Rodger L. Daniels, greeted the advent of Medicare with mixed feelings. There was a prodigious amount of paper work to be done. On the other hand, certain collections were better guaranteed. Payment on welfare accounts also improved, following a statewide court decision. No longer was a "per diem" rate, unrealistically low, summarily dispensed; hospitals were to be reimbursed a specified fraction of their costs. Preparations were underway for arrival of the computer, IBM Model 1401. Systems work and programming consumed many hours before the first runs. A relatively simple machine, the 1401 was acquired to efficiently render fiscal reports, operational day-to-day patient data, and some retrospective data for utilization review and for other medical and administrative management purposes.

The Division of Personnel moved from sub-basement quarters to an almost pastoral overlook in the first floor of Kirstein Hall (until the lawn was covered with asphalt), the area vacated by the now defunct School of Nursing. A forty per cent increase in applicants was noted, but whether related to the move in location, to the move in minimum wage ($1.60 to $2.00), or to other factors, is moot. During the year, fringe benefit policies were reviewed with liberalization of vacation, holiday and sick leave benefits; Blue Cross benefits improved to full coverage for semi-private accommodations. All operational policies conformed to or exceeded the guides in the Fair Labor Standards Act. A new motto was coined and promulgated, "Beth Israel Hospital Has a Better Job for You." It was supported by the fact that almost a quarter of new people hired are recruited by current employees.

The Volunteer Service, headed by Mrs. Helen Williams, made its contribution to the Division of Personnel, showing a 20 per cent increase in number of volunteers over the figure for 1966 (550 *vs.* 460) and a 16 per cent increase in hours of service (51,244 *vs.* 44,211.)

Public Relations and Resources, under Mr. Louis Stein, also moved to Kirstein Hall. A series of luncheons for the public was given where guests learned from Clinical Chiefs of the exciting medical progress being made at the Hospital. The Employees' Art Exhibit was a brilliant success in its first year. The Young Executive program recruited the interest of over a dozen young community leaders and involved them in projects within the Hospital.

My own office was happily stabilized by the arrival of Miss Katherine Shepherd, as Administrative Assistant. In an attempt to keep "communications" both bidirectional and fruitful, a spectrum of channels beyond the "Dear Doctor" letter was set up. These included an "Employee Newsletter," and meetings with Department Heads, and with Head Nurses. Orientation sessions were held for new Trustees, and each Board Meeting was garnished with an informative exposition of one aspect of the Hospital's varied activities, generally by the individual directly involved.

Regular meetings were also set up with officers of the Staff Council to enhance communication from and to the private physician. The Staff Council's alumni meeting in April 1967 was a solid success, with Dr. Benjamin Alexander and Dr. William Silen as featured speakers.

Among the many actions of the Board of Trustees for the year, one deserves special mention, banning the sale of cigarettes within the Hospital. This forthright step was taken in the belief that an institution devoted to the preservation and recovery of health should not traffic in the harbingers of lung cancer, bronchitis and coronary artery disease.

The Women's Auxiliary, already mentioned in connection with its generous support for the Surgical Intensive Care Unit, hosted a superb benefit concert by Roberta Peters. The Auxiliary Thrift Shop contributed over $50,000 to the Hospital this year, bringing the total since 1959 to almost three-quarters of a million dollars.

The Annual Meeting held as a November breakfast was particularly rewarding due to the sprightly appearance of the beloved Dr. Charles F. Wilinsky whose eighty-fifth birthday was celebrated concomitantly. The gavel of the presidency was passed from Mr. Samuel L. Slosberg to Mr. Irving W. Rabb. In his three years of office, Mr. Slosberg had ushered the Beth Israel Hospital to an increasingly lustrous national reputation and had etched goals of reason, concern, knowledge and integrity which would be the standard bearers for the Hospital in the second half of its first century.

Looking forward, we can foresee new challenges. The qualities of motivation, interest and hard work which have been displayed by our employees, volunteers, staff, students, members of the Board of Trustees and Women's Auxiliary augurs well for converting the challenges into opportunities and capitalizing upon them for the good of our patients and our community.

REPORT OF THE PRESIDENT OF THE WOMEN'S AUXILIARY

In the September, 1967, issue of "Trustee", a journal for hospital governing boards, it was stated, "no longer is the prestige of a hospital measured by the number of horizontal patients it has; hospitals now are judged by the spectrum of services they are able to bring to the community and the quality of care they can give."

These precepts have been faithfully followed by the Women's Auxiliary. In community services our activities range from help at our satellite clinic in Roxbury, for medically indigent children, to the dissemination of knowledge on current medical probems. In October, Dr. Donad B. Luria, president of the New York Council on Drug Addiction, spoke at our general meeting on "Narcotics and Hallucinogens."

The quality of patient care is obviously not in our domain, yet we can and do supplement various services, so as to ensure better care for all.

Possibly Immanuel Kant expressed the ideology of the auxiliary best when he stated in his great maxim "So act as to treat humanity, whether in thy own person or in that of any other, in every case as an end withal, never as means merely."

I am proud of the heritage of service that the women of this community have ineradicably stamped on the annals of this hospital. I am proud that our women have kept faith with this legacy.

One year ago the Executive Board of the Women's Auxiliary pledged itself to raise $600,000 to make a Surgical Intensive Care Unit and facilities possible. During 1967 the auxiliary gave $40,000 to the hospital to meet the requirements of many on-going services they help maintain. At the Annual Meeting presented to Mr. Samuel L. Slosberg, President, our check for an additional $65,000 as the second payment toward the Surgical Intensive Care floor. This makes the grand total of $105,000 that the women have given to the hospital in 1967.

One of the distinct pleasures of this office has been in working with Mr. Slosberg. His administration has seen great growth in both the stature and physical complex of the hospital. I offer him the congratulations and best wishes of the auxiliary, and to his successor our continued support and loyalty.

Doris S. Lewis

Mrs. Allen S. Lewis

FINANCIAL STATEMENT
BETH ISRAEL HOSPITAL

ARTHUR ANDERSEN & CO.
BOSTON, MASSACHUSETTS

To the Board of Trustees of
The Beth Israel Hospital Association:

We have examined the balance sheet of THE BETH ISRAEL HOSPITAL ASSOCIATION (a Massachusetts corporation) as of September 30, 1967, and the related statements of income and fund balances for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances. We have previously examined and reported on the financial statements for the preceding year.

In our opinion, the accompanying financial statements present fairly the financial position of The Beth Israel Hospital Association as of September 30, 1967, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Arthur Andersen & Co.

Boston, Massachusetts,
February 12, 1968.

BALANCE SHEETS

September 30, 1967 and 1966

ASSETS

	1967	1966
CURRENT ASSETS:		
Cash	$ 479,441	$ 205,463
Accounts receivable —		
Patients — less allowance for doubtful accounts of $470,340 in 1967 and $312,100 in 1966	$ 1,426,733	$ 943,047
U. S. Public Health Service	1,229,064	1,028,973
Other	565,951	312,124
	$ 3,221,748	$ 2,284,144
Inventories, at cost (first-in, first-out)	$ 206,217	$ 199,786
Prepaid expenses	106,164	58,392

Plant fund	11,773,667	11,609,111
Development fund	4,865,871	1,400,325
Special purpose fund	1,783,538	1,406,123
Total, as above	$28,225,881	$23,459,140

The accompanying notes are an integral part of these financial statements.

NOTES TO FINANCIAL STATEMENTS

September 30, 1967

(1) The Hospital initiated a Building Fund campaign in 1966 to provide new inpatient and research facilities at a total estimated cost of 12,600,000. Funds are to be provided for this project as follows:

1966 Fund campaign	$ 8,700,000
Remaining unapplied pledges of 1960 Building Fund	1,000,000
Estimated Federal government assistance	2,900,000
	$12,600,000

Construction of the new facilities began in 1966, and costs incurred on incompleted construction amounted to $2,406,303 at September 30, 1967.

In June, 1967, the Hospital made arrangements with a bank for the temporary financing of the Hospital's construction program. At September 30, 1967, loans of $1,675,000, have been made to the Hospital which were covered by development fund pledges already received at that date. The loans are due on demand and interest is payable at the rate of ¼ of 1% above the Boston prime interest rate. The Hospital has agreed that should the loans exceed development fund pledges, the Hospital's unrestricted endowment funds would be available to pay any balance due on the loans outstanding as of January 1, 1972.

(2) Hospital property, plant and equipment as of September 30, 1967 is summarized below:

	Cost	Accumulated Depreciation	Net
Land	$ 229,354	—	$ 229,354
Buildings and improvements	8,796,452	2,844,853	5,951,599
Equipment	9,424,768	3,921,460	5,503,308
	$18,450,574	$6,766,313	$11,684,261
Construction work in progress	2,406,303	—	2,406,303
	$20,856,877	$6,766,313	$14,090,564

(3) The salaries and expenses shown for research and education do not include substantial amounts for grants administered by Harvard University for work done at Beth Israel Hospital. Overhead costs incurred under research and education grants include overhead reimbursements received by the Hospital on account of Harvard administered research.

(4) The Hospital adopted a noncontributory pension plan for substantially all of its employees in 1966. Pension plan expenses charged to income amounted to $158,300 in 1967 and $115,000 in 1966 which include $78,900 in 1967 and $50,500 in 1966 for amortization of past service costs over a ten year period. In addition, the Hospital accrued $97,000 for pensions of doctors covered under the Harvard University retirement program and for other pensions under informal pension arrangements. It is the Hospital's policy to fund pension costs as provided in the accounts.

BETH ISRAEL
HOSPITAL

serves the sick and disabled of any race, color or creed and pursues new paths toward advanced medical care through an active research program. Your gift will stimulate this two-fold tradition which has placed Beth Israel among the leading general hospitals in the nation.

FORM OF CONTRIBUTION:

I hereby contribute the sum of_____ dollars to the Beth Israel Hospital Association, a corporation duly organized under the laws of the Commonwealth of Massachusetts, to be used in such manner as may be considered most expedient by the Board of Trustees.
